Emergency Dept: (718) 630-7425

Location: Sunset Park, Brooklyn

Driving Directions: Head east on Neptune Avenue and turn left onto Cropsey Avenue. Turn left onto Bay 50th and take the ramp on the left onto the Belt Parkway. Continue on the Belt Parkway until Exit 1. Take Exit 1 toward 65th/67th St. Merge onto Shore Road then take the exit to 2nd Ave. On 2nd Ave, turn left onto 58th St, right onto 1st Avenue then right onto 55th St. NYU Lutheran will be on the right.

From Randall's Island

Facility Name: New York Presbyterian/Weill Cornell Medical Center

Emergency Dept: (212) 746-5050

Location: Upper East Side, Manhattan

Driving Directions: Head to the RFK / Triboro bridge, taking the ramp to Manhattan. Use the left two lanes to merge onto the FDR Drive South Exit. Continue on FDR Drive until Exit 13. Take Exit 13 towards East 71st St, turning right. Turn left onto York Ave then left again onto East 70th St. Medical center will be on the right.

BROOKLYN RUGBY EMERGENCY ACTION PLAN FOR HOME GAMES

Medical Plan

The athletic trainer/first-aid will arrive no later than 30 minutes prior to kickoff in order to tape and prepare players for a game. The athletic trainer/first-aid will bring a fully operational AED and medical kit which will contain all necessary first-aid equipment such as ice packs, bandages, gauze, tape, distilled water, creams and painkillers. These pieces of equipment will be kept on the sidelines and made available to all players, staff and match officials.

Injury Procedure

If injury occurs during warm ups or outside of the scheduled game, players should report to the medical director and/or athletic trainer/first-aid.

If injury occurs during the course of play, the medical director and/or athletic trainer/first-aid will conduct a primary on-field assessment. If the injury is not deemed serious, the medical director and/or athletic trainer/first-aid will bring the player to the sidelines and conduct a secondary assessment. During this assessment, they will inspect the player and determine if the player should be transported to the nearest hospital or medical facility. They will assist in organizing transport for the player by private vehicle (with family, friends or cab) if an ambulance ride is declined.

All major injuries and their treatment will be recorded by the medical director and reported to the club's coaching and administrative staff.

If there is a dispute over the medical care of a player, this must be brought to the attention of the medical director and the incident will be recorded in writing. Situations such as this will be dealt with on a case-by-case basis
