Medical Plan

The medical director/trainer will arrive no later than 1 hour prior to kickoff in order to tape and prepare players for the day's match. If an injury occurs during warm-ups, the player should report to the medical director.

If an injury occurs during the course of play, the medical director will assess the injury. If the injury is deemed serious than the director will arrange transport, by ambulance if necessary, to Crouse Hospital.

All injuries and their treatment will be recorded by the director and reported to the club's administrative staff.
